

Red Head Henna

HENNA AFTERCARE

- UNDER THE HENNA PASTE IT IS STAINING YOUR SKIN, SO LEAVE THE PASTE ON A MINIMUM OF 6 HOURS, BUT 12 HOURS IS BEST!
- WE RECOMMEND OUR CTRUS SEALANT SPRAY TO KEEP THE PASTE STUCK TO YOUR SKIN.
- IT'S OK TO SLEEP WITH THE HENNA PASTE ON.
- KEEP PASTE DRY AND COVER THE DESIGN IN FACIAL TISSUE OR PAPER TOWELS THEN WRAP WITH CLING WRAP OR AN ACE BANDAGE.
- TO REMOVE THE PASTE AFTER 6-12 HOURS GENTLY SCRAPE OFF IN THE GARBAGE OR OUTSIDE.
- IF IT IS BEING STUBBORN USE A LITTLE VEGETABLE OR OLIVE OIL TO HELP LOOSEN IT, DO NOT USE WATER!
- THE STAIN WILL FIRST APPEAR TO BE BRIGHT ORANGE, IT WILL DARKEN OVER THE NEXT 24-36 HOURS TO A BROWN/AUBURN COLOR.
- DO NOT GET DESIGN WET FOR 24 HOURS AFTER PASTE REMOVAL.
- BEFORE COMING IN CONTACT WITH WATER ONCE THE PASTE IS REMOVED APPLY VEGETABLE, OLIVE OR COCONUT OIL TO THE AREA TO PROTECT THE DESIGN.
- AVOID LOTION, SUNSCREEN, SHAVING, AND EXFOLIATION ON THE DESIGN AS THESE WILL CAUSE THE DESIGN TO FADE QUICKER.
- YOUR HENNA DESIGN SHOULD LAST BETWEEN 1-3 WEEKS!
